## Speed Zone Around Schools Sought; Two Salaries Upped

A speed limit of 15 miles per hour around the schools with proper signs denoting the limit plus police patrol at the noon hour and at 3:45 will be asked of City Council as a result of action by the school board Tuesday night.

Don Humble remarked to members of the board that the school area is used as a "drag strip" at this time and the excessive speed and carelessness of some drivers around the school at this time is deplorable.

Salaries of Wiley Loughmiller and Dick Young were raised in the post midnight session of the board with the grade school principal getting $200 more per ten month school year, and Young raised from $699 over Gilmer Aiken to $800 above G. A. Loughmiller, it was explained has to put in at least two weeks before after the closing of school each year. In the instance of Coach Young the raise was considered to be a long overdue raise in view of his excellence as a schoolroom teacher and for his 17 years experience.

In the future the athletic program will consume only the last period rather than the last two periods of the day. This action came upon request of the administration. Principal Layfield explained that the move had been considered for the past three years but only now has shown itself to be entirely feasible and desirable. Concurrence of the board was not only unanimous but enthusiastic. Some difficulties in getting students to their homes in the country is anticipated but this problem will be dealt with as it arises it was explained by W. T. Hanes, Superintendent.

Don G. Humble was appointed by president of the board to search out and hire an auditing firm to set up a complete bookkeeping system for the school system more thoroughgoing than that now employed, and to audit the books for this year. Humble agreed to accept the assignment but decision of the hiring of the auditing firm will be up to the entire board. Dr. Shapiro noted that in Cameron the school expenditure is about $370,000 annually and thus justified the best of bookkeeping. A running inventory

## Vols Fight Blaze; Against Odds, Save Nearby Property

Fire demolished a three front building in the 500 block of South College Monday afternoon.

The building owned by the Mondrik estate and a beer tavern owned and operated by Ben Kennon caught fire around the kitchen stove Mrs. Kennon surmised. She had gone home for a moment preparatory to going to the hospital to see her granddaughter, little Marcia Lynn Petru, daughter of Mr. and Mrs. Joe Petru when she drove back by her tavern to find Mrs. Jesse Barrett, Theo Loftin, and Raymond Lawrence were running out of the establishment which was already an inferno.

Because she had left so quickly she had forgotten to take her purse which had the days deposit of more than $200 it it, her drivers license, social security card, hospital Insurance papers, life insurance and other cards of identification.

The fire started almost simultaneously with the opening of ceremonies of the cornerstone at the Milam Liberal Institute.

The old, dry wood caught on quickly and was an inferno in a short time.

The Lazek brothers, 30 feet to the north of the fire would have sold out at a very "reasonable" price during the heighth of the flame. Fire Chief Carl Black ordered the volunteers to stay with the protection of the frame building owned by the Lazek's. Fred Lazek said that he would have given his business away, at one time he felt so sure that it was gone.

During the blaze another alarm was turned in as the Joe H. Smith home 1002 West Main caught from a spark. When firemen arrived there Mr. Parmer who owns the residence and operates a business in the rear had already doused the shingles with a garden hose.

About twenty volunteer firemen fought the blaze, not to save the structure which was ablaze but with tenacity stayed with the extremely hot, if not dangerous, job of saving the nearby structure.

## Jimmy Asher Main Speaker At Daingerfield

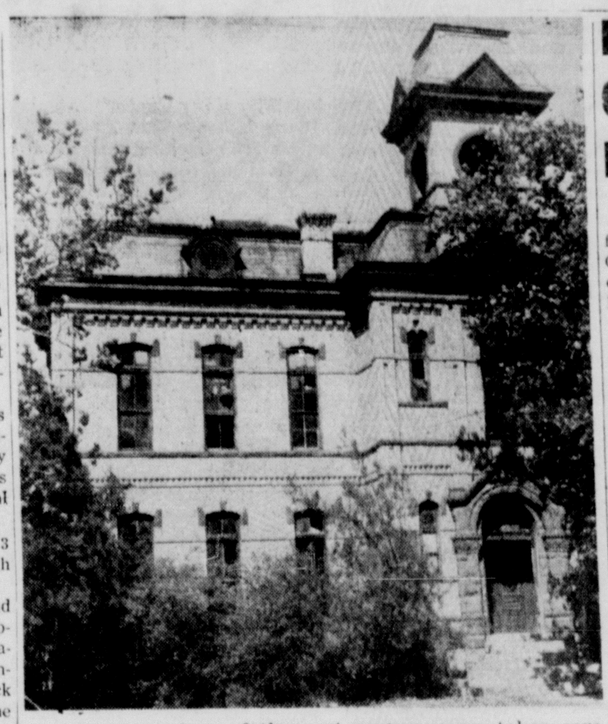
Jimmy Asher, educational director of the First Baptist Church at Comeron, will be one of the main speakers next week when 97 Southern Baptist pastors, laymen and missionaries gather at the Daingerfield Baptist Encampment for a three-day conference on rural church problems.

Some of the things the workers will talk about are soil conservation, rural industry, community recreation, and other problems particularly applicable to rural churches.

The sessions will last from 3 p.m. Monday, May 14, through Wednesday, May 16.

On Sunday evening Mr. and Mrs. Frank Jurca, Mrs. Jesse Weber and son Larry Dwayne and daughter, Mrs. Louis Krenek accompanied Airman Donald Weber back to Norman Oklahoma where he is attending school.

Mrs. J. Y. Logan is resting well in St. Edwards hospital after under-going surgery. Her many friends wish her a speedy recovery.



As mementoes of the past century were taken carefully out of a little copper box which had been in the cornerstone of the erstwhile Milam Liberal Institue on Monday May 14, amid the sound of sirens announcing a devastig fire going on at that moment in town, some of the old pieces of literature recalled that fire had demolished the first Cameron School building in 1891.

These mementoes are now in the hands of school authorities. In the next issue of the Herald a full report will be given of the cornerstone opening and of the contents of the little copper box.

Mayor of Cameron, Ben I. Arnold, on July 25, 1891 penned the following letter which was placed in the cornerstone which was opened on Monday May 14 in commemorative exercies of the students and citizens of Cameron on behalf of the now historical and past Milam Liberal Institute.

Said Arnold: May this structure magnificent in comparison with the present resources of the enterprising little city which has erected it long stand as a monument to the enterprise and generosity of the citizens of Cameron. Commemorating their intelligence and zeal in the cause of education, and their lovig regard for the welfare and happiness of future generations. And may the progressive spirit now prevailing continue to grow and expand and blaze and glitter to the continued prosperity and happiness of the present and future generations; and when ages have past may the dear old town be still lovingly remembered for the many blessings resulting from this and kindred enterprises is the sincere desire of

Signed: B. I. Arnold

## Pruett Trial Continued On Defense Motion

A continuance was granted defense attorneys in 20th. District Court Monday morning in a case envolving E. B. Connor and wife Elaine versus Hinton H. Pruett.

Continuance to the next term of court was granted by Judge O. D. Graham upon presentation by Pruett's counsel showing that the wife of the defendant is not physically fit to appear as a witness or in any other capacity at this time. The part of the petition concerning health of Mrs. Lela Pruett was contained in a letter signed by Dr. A. C. Bennett, M.D. of the Torbett Hospitl in Marlin.

Petition points out that Mrs. Pruett was a witness to a conversation on or about April 5, 1955 involving a check for $725.16 on a farm near Milano. The petition also points out that affiant expects to prove that Mrs. Pruett was present and that she heard the conversation and can testify to what was said.

Attorney for the plaintiff read an objection into the records and following continuance of the case set in which will seek signers to substantiate any motion that he may present the court seeking a change of venue due to prejudices which will not permit a fair trial, he said. Plaintiffs attorney is Walter L. Tandy of Waco.

## City Grants $750 As Half Of Summer Recreation Program

Members of the Cameron City Council in a marathon five hour meeting Tuesday night, did a lot of talking and got a lot of city work done.

A. N. Green appreared to offer a 4½ acre tract of land for an addition to the city cemetery. The cost to the city for the land would be $6500, provided the land is used for a cemetery only. A special committee was appointed by Mayor Robert Weems to investigate the offer.

Cameron attorney, Jack Prescott, representing C. A. Jackett, owner of the Milam Motel, came before the council to ask about refinishing the street east of the motel. According to Mr. Jackett dust from the street is causing damage to the air conditioners and appearance of his business Upon motion of Councilman Brady, a resolution was passed to do everything necessary and to expedite the work.

Prescott and Jackett also brought before the council the matter of water service to the motel, and the difficulites of cleaning out the four-inch water line which dead-ends there. The question of adequate fire protection in the area was discussed. Councilman Thompson reported that the department will extend the water line a short distance so the line can be flushed out. Clifford Thompson said that, with the help of the government, a consulting engineering firm, Joe J. Rady Company of Ft.Worth, is making a survey and plan for the building of a complete and adequate modern water and sewer system for the city.

Tommie Kirk and E. A. Perrin appeared before the council to ask permission to install a butane tank at Pat Sander's service station for the distribution of the gas to users in cars and trucks.

Allen Dodson asked council if it is planning to take part in the city recreation program this summer and was notified that $750 is set up in the city budget for the program. A recreation committee of Mondrik, Brady, and Griffin will work with a similar committee from the school board on the summer recreation plans.

Water commissioner, Clifford Thompson, reported that the watter pumps at the river are back in order and running at full capacity. A discussion of the reported low pressure on the fire-fighting hose on the city's four-inch lines came up and according to Thompson the low pressure may not be all the line's fault. The council instructed the water department to flush the lines at least once a month and check the fire plugs to make sure they are in good working order.

Council next turned to irrigation and summer water rates. According to Mr. Thompson, if the

## Christian Mission Theme Of Methodist WSCS Study May 21

"The Christian Mission in a Revolutionary World" is the theme of study of the Woman's Society of Christian Service beginning on May 21 at the First Methodist Church in Cameron.

The purpose of this general theme, that covers the world, is to bring alive the churning, suffering, aspiring world of today and let us see that the gospel is adequate for such a time as this.

The major texts are: "This Revolutionary Faith" by Floyd Shacklock; "They Reach For Life" by John E. Skaglund.

There will be four sessions of one and one-half hours and the course will be given under the direction of Mrs. W. A. L. Robinson.

## Air Sampler In Austin Checks Fallout

A high volume air sampler installed on the roof of the State Department of Health here will show any increases in radioactive "fallout" resulting from nuclear bomb tests now being conducted in the Pacific.

The air sampler, capable of sampling more than 1500 cubic feet of air every day, is designed to trap air-borne radioactive particles on a thin pink filter pad. When read daily, increases in radioactivity occuring on any given day are apparent.

The instrument was installed two weeks ago as part of a sprawling coast to coast network of 39 monitoring stations. It was provided by the U. S. Public Health Service and the Atomic Energy Commission to get quick first hand records of radioactive fallout reaching the United States from the Eniwetok Proving Grounds where test firings began last Friday.

"Fallout" is the term applied to particles of matter atomized and made radioactive by exploding super weapons and drawn into the atmosphere by updrafts. The particles eventually settle back to earth as "fallout."

## Poultry Trends Indicate More Eggs In 1956

An increase in the size and number of commercial laying flocks in Texas indicates a trend toward a higher percent of high quality eggs reaching the consumer. This means a highly competitive commodity is being produced in Texas, says John G. McHaney, extension economist.

A larger and earlier hatch of chicks for laying flock replacement has developed in 1956 than was present in 1955. January hatchery output of replacement chicks was 26 percent above last year, and on February 1 the number of eggs in incubators was 21 percent above that of a year ago.

Because of the increase of laying flock replacements, egg production after the middle of the year will probably be increased over that of 1955. This will probably bring poultrymen lower prices in the latter part of 1956 than at the same period last years, says McHaney.

During the past few years the number of layers on the farm, as well as the number of small poultry flocks has decreased. The rate of lay, however, has increased, and there has been increasing commercialization of poultry flocks.

As a number of areas in the state are developing large commercial flocks, emphasis is being placed on feeding, management, marketing, and other factors aimed at building a more efficient operation. This enables large commercial operators to produce at a lower cost per unit, assuring a greater opportunity for profit. As small flock owners are unable to operate with the efficiency of management that is made possible by a large commercial flock, they are kept at an economic disadvantage. To insure volume for efficient and profitable marketing distribution, small egg producers will have to increase their production, says McHaney.

**Safe Bicycle Riding Essential To Grow Old**

Bicycles and automobiles bloom in the spring, and this season will see more bikes and cars on the road than ever. Result: greater need for driving care to protect children. So says Carol Lane, noted travel authority and women's travel director for Shell Oil Company.

To support her plea for safety, she cites figures on the season's crop of cyclists and motorists. There are now some 23 million bicycle riders in this country. The Bicycle Institute of America expects bike sales in 1956 to go over 3 million, making this year the biggest ever for bicycling.

These bikes will share the road with a record number of cars. There will be 3 million more motor vehicles on the road this year than last - for an all-time high of 61 million.

"It is shocking to realize that the greatest single killer in this country of children aged 1 to 14 is motor vehicle accidents," Miss Lane Says.

Bicycle riders are supposed to observe the same rules as those that prevail for motorists. "But children are children. It is up to the adult driver to stay alert and prevent accidents." she says.

She also advises parents to make sure that their child's bicycle is kept in perfect working condition and to teach the youngsters the elements of safe bicycle riding.

## Virginia Mills Baptist Circle Holds "TV" Panel

Looking forward to a summer of study and fellowship the members of the Virginia Mills Business Womans Circle set their next regular meeting to be at the home of Mrs. Frances Mallard, June 12. Mrs. Ruth Lagrone was appointed to lead the group in a study of the Baptist Sunday School Board.

Eleven members and one visitor were present in the home of Mrs. Winnie Mae Green Tuesday, May 8. The group participated in a make believe TV-panel show. The theme of the program "Onward, Christian Soldiers" was emceed by Mrs. Helen Patterson with the following as panel members: Mrs. Inex Wilson, Mrs. Ruby Swanzy, Mrs. Ruth Lagrone, Mrs. Frances Mallard, Miss Natalie Bynum and Mrs. Leslie McDonald.

During their business meeting the members voted to give ten dozen cookies to the McCloskey Hospital, Temple, on May 23. Mrs Mallard, Community Missions chairman, told the group these ten dozen would be added to eighty dozen given by other circles in our church.

Printed programs representing a TV screen were used.

Mr. and Mrs. Henry C. Dreyer, 703 E. 7th St. had as guests last week, Mrs. Dreyers Aunt and Uncle, Mr. and Mrs. C. W. Dodson of Lubbock.

The Dodsons visited Mrs. C. E. (Cecil Hardwick of Waco before coming to Cameron. Mr. Dodson is a retired carpenter in Lubbock, having moved to the west Texas town about sixty years ago. He was born on a farm near Davilla where his parents farmed. They were Mr. and Mrs. William Henry Dodson.

## Milano Students Longhorn Cave Trip Successful

Buchanan Dam was first stop for Milano students on a trip to the Longhorn Caverns on Friday May 4.

At the dam the students were impressed with the fish, snakes, the squirrels and insects which they are studying at school and then the grand sight of electricity in the making.

Entering the Longhorn caverns at one p.m. and observing the wonders of nature in the raw the group, remembering especially the formation of the stalactites and stalagmites in the cave.

Crystalized limestone was studied in the Hall of Diamonds and deposits of flint, quartz, sulphur, soap stone and pink granite rocks. A demonstration of creating fire with flint was given the students.

Pure pleasure and a storehouse of knowledge was gained from the trip both pupils and adults felt.

## Surprise Attends Announcement Party At John B. Henderson Home

About four hundred friends of the Hendersons of Cameron and the McCarrols of Rusk called at the John B. Henderson home, 410 West Fourth Street in Cameron on Saturday, May 5, from 7 to 10 p.m.

They gathered to honor Miss Eloise McCarroll and John B. Henderson Jr., whose troth will be plighted on June 8 at the First Presbyterian Church in Rusk.

"25"

Guests expected to read the announcement as they did on the tea napkins "Lella and John, June 8, 1956 but were taken totally by surprise when they also found napkins announcing "Fan and John, June 10, 1931." It was exactly 25 years ago that Mrs. T. S. Henderson honored Miss Fannye Lou Davis in the same home as the bride-to-be of her son John Burns Henderson. That wedding took place in Fort Worth. Many of the guests of the evening had attended that earlier announcement party.

Miss Henderson greeted the guests at the door and presented them to the receiving line, which was composed of Mr. and Mrs. Henderson,the honorees, Miss McCarroll and Mr. Henderson, Junior, and the parents of the bride-elect, Mr. and Mrs. Lewis Richard McCarroll of Rusk.

The guests registered in a beautiful bride's book, a gift to the bride-elect, at an antique marble top table at the end of the hall. Mrs. J. C. Martin presided at the register. A dainty china slipper held a bouquet of sweetheart roses, brought from Austin by Mrs. Giles Avriett, grown from her own wedding bouquet.

The oleander plants lining both sides of the long front walk were in full bloom. The abundance of white blossoms provided a perfect setting for the occasion. The entire first floor of the home was a profusion of flowers. Outstanding in the entrance hall was a tall basket of talisman gladioli. English ivy, holding white oleander blossoms, banked the twin mantles in the livingroom where graduated white tapers burned during the evening. Beautiful arrangements of carnations, sweetpeas, roses, Easter lilies, delphinium and other flowers were used in decorating the home.

Mrs. Winifred M. Wittliff, in charge of music for the evening, was at the piano at the beginning of the reception. Assisting with the music were Mrs. Ernest J. Davis, Mrs. C. W. Bradbury, and Miss Jane Le Fevre, niece of Mrs. Henderson.

Guests were invited into the diningroom by Mrs. Charles M. Hicks of Austin, Mrs. Wells Smith of Temple, andd Mrs. George T. Graves. Greeting guests in the diningroom were Mrs. Bassett Watson of Dallas, Mrs. B. F. Robinson, and Mrs. W. A. Bonds.

The refreshment table was covered with a white satin and metallic cloth and was centered with handpainted graduated silver wedding bells lined with pink. The bells were caught at one end with a large bow of pink satin ribbon and were holding white carnations and plumosa fern. They were flanked with beautiful dresden cupid candle-sticks which held white handmade candles.

The three-tiered cake of unusual beauty was placed on a large oval shaped reflector at one end of the table. It was iced in white and was embossed with white spun sugar rose and daylilies and small rosebuds in faint pastel shades. Each tier rested on columns frosted in white and was completely encircled by pale pink tulle and ornamental frosting outlined with silver dragee. The cake was topped with wedding bells and lilies of the valley.

Th punch bowl and all other appointments were of silver.

Mrs. Ernest Beard of Hillsboro and Mrs. John Cecil Culpepper of College Station, sisters of the host served the cake, and pouring were Mrs. F. E. Harrison of Fort Worth and Mrs. E. W. Le Fevre of Eden, sisters of Mrs. Henderson. Pastel mints and salted nuts were also offered.

The buffet in the diningroom marked the silver wedding anniversary of the host and hostess. Near the silver candelabra was a nosegay of sweetheart roses tied with silver ribbon and the loce from Mrs. Henderson's wedding bouquet. Nearby was the wedding announcement of 1931 and the numbers 25 in silver. At the other end of the buffet was a beautiful silver service. The large footed tray was an anniversary gift to the pair from the sisters of Mr. and Mrs. Henderson. The five piece service was a gift to Mrs. Henderson from her husband.

Assisting in the dining-room were Misses Martha and Mary Beard, nieces of Mr. Henderson; Misses Betsy Ann Coleman, Bay City; Ann and Joan Fitzgerald, Midland; Grace Ann Churchill, Chicago; Jean Pepper, Dallas; Effie Birdwell, Texas City, cousin of Mrs. Henderson; and Misses Beverly Freeman and Jimmie Rae Colburn. Also assisting in the diningroom were Mesdames John C. Solomon, A. W. McCullin, Herbert Colburn, Dewey McElwrath, Tyson Freeman, W. H. Garner. Charles R. Law, Austin; Sam W. Law, Houston; LeRoy Raley, Fort Ord, California, and Mesdames A. L. Birdwell of West and Everett Haley of Lufkin, cousins of Mrs. Henderson.

Also in the houseparty and assisting in the living-room were Mesdames Roy Law, Henry Poetter, Temple; James L. Coleman, Bay City, and the following relatives of Mr. Henderson: Mrs. Bill Burns, Mis Mary Burns; Mrs. John H. Burns, Houston; Mrs. T. S. Henderson, Mrs. T. S. Henderson, Jr., and Mrs. L. W. Stephens, Waco; and Mrs. Edgar E. Glenn, San Antonio.

# Controls Make 730 Acre Open Alcoa Lake Fisherman's Dream

Three years from the time it was stocked in May, 1953, a lake created by Aluminum Company of America for industrial purposes has been converted into a fisherman's dream, according to reports to the Executive Secretary of the Game and Fish Commission.

He said a principal attraction is a traffic restriction which bars promiscuous motor boating and gives the angler "some semblance of privacy."

The lake, which is in Milam County near Rockdale, was made originally as a cooling unit for ALCOA's huge plant which produces aluminum with electric power generated through use of local lignite.

Since the water was not contaminated through this particular industrial process, company officials called on the Commission for fish management counsel. The lake was so successfully stocked that black bass limits now are common. There also are good catches of channel catfish and bluegills.

The company, under the Commission arrangement, agreed to make the lake available to the general public subject, however, to strict regulations designed to aid the angler as well as to safeguard the new Milam County recreation spot. Motors are limited to ten horsepower. Racing is banned.

The 730 acre lake has provided vast material for aquatic biologists since each fisherman registers and reports on such vital statistical data as to time spent angling and the results. For example, records showed that as of January 1, the first year and one half angling yielded 32,500 fish, mostly bass, to 30,000 fishermen, and that the prize for the first five pound bass had been claimed.

Also beneficial from the Commission viewpoint was the thirty-eight brood bass taken from a small "off limits" spawning lake connected with the main body of water by a narrow channel. The fighting blacks, averaging three pounds, were used to reinforce the stock at San Marcos State Fish Hatchery.

Regulations appealing to dyed-in-the-wool fishermen include: no firearms or intoxicating liquors permitted; Swimming only in designated areas; youngsters under sixteen must be accompanied by parents when fishing from boats; each boat must carry a life preserver for each occupant and no boat may be overloaded with passengers.

Bird watchers treasure the lake as an observatory during the waterfowl migration periods since the no-hunting rule provides an ideal resting place for mallards, pintails, redheads and gadwalls as well as for countless shore birds.

# Heart O' Texas Spring Scout Camporee Held

The Heart O' Texas Council, Boy Scouts of America, held the Annual Spring Camp-O-Ree May 4 and 5. Each District held a Camp-O-Ree within their own geographical area. The Tejas District Camp-O-Ree was held at the Old Settlers Reunion Grounds, Tomlinson Hill, Lott, Texas, with 109 Scouts and Leaders participating.

Troop 56 of Chilton, with Robert Goelzer as Scoutmaster won the Top Award with a perfect score as a troop on Campcraft achievements. Troop 35 of Marlin, Enos Lumpkin, Scoutmaster took second place in Campcraft skills only two points from a perfect score. Two other Boy Scout Troops 57 of Marlin, Leslie Fischer, Scoutmaster and Troop 83, C Troops 57 of Marlin, Leslie Fischer, Scoutmaster and Troop 83, Cameron, Allen Dodson, Scoutmaster.

Other Boy Scout Troops participating in the Camp-O-Ree were Troop 54 from Reagan, A. E. Agan, Scoutmaster, Troop 90 from Rockdale, Keen Franklin, Scoutmaster and Troop 87, Milano, L. E. Love Scoutmaster.

Besides the Troop Campcraft Projects, each patrol competed against a standard for awards in Scoutcraft Skills. Class A Ribbons were awarded to the Rattlesnake Patrol of Troop 35 and the Apache Patrol of Troop 54. Class B Ribbons were awarded to the following patrols; Coyote and Fox from Troop 57, Bear from Troop 35, Fox and Wolf from Troop 56, Mohawk from Troop 83 and Mohawk from Troop 90. Class C Ribbons were awarled to Hawk Patrol from Troop 57, Flying Eagle from Troop 35, Apache from Troop 83 and the Flaming Arrow from Troop 90.

Judges for the Scoutcraft Events were Explorers Jerry Sylvester, Tim Hayes Billy Lynum from Post 58, Lott, Bill Bradshaw, Phillip Meuse, Buddy Housewright, Conrad Pauling, Charles Rush from Post 35, Marlin. Joe Spadora, Tejas District C and A Chairman was the General Chairman for the Camp-O-Ree.

# Radar Checks Acceleration

RADAR today is checking fuels as well as speeders. Southwest Research Institute in San Antonio Texas, one of the largest independent research organizations in the United States, is currently using a Radar Speed Meter (the some instrument used in radar highway patrol) to check acceleration of today's high-horsepower, high-compression engines.

These tests are being conducted for Shell Oil Company using their motor fuel.

First, a comparative test is made using other fuels; then, a second test is run using Shell Premium with TCP. In this manner, extremely accurate information can be gained on acceleration performances.

# Nan Hubert Nominee For Rodeo Queen

Nan Hubert, daughter of Dr. and Mrs. J. S. Hubert of 312 N. Central, Cameron, was one of the two runner-ups for Harris Blair Cqb Sweetheart at Southwest Texas State College Friday, May 4.

The Freshman business administration major was also a nominee for Rodeo Queen during the Frontier Day Celebration of April 25. She is a member of the Allie Evans Literary Society, a girls social club on the campus.

# Uncle Sam Wants Tooters In Army

Here is a chance to toot your own horn in the U. S. Army.

The Army has openings for qualified musicians in many of its 102 professional caliber bands. In some cases it is possible to enlist for eventual assignment to a specific band of the enlistee's choice

To secure a specific band assignment, the musician must audition for the bandmaster, and be given a letter of acceptance. Then the musician enlists in the Regular Army at his local recruiting station for a three year tour. Upon completion of basic combat training, the enlistee is then assigned to the band of which he enlisted.

Critical shortages are developing for clarinetists, French horn players, oboists, bassoonists, flutists, baritorn saxophonists, and tenor saxophonists.

There is the additional possibility of training at the U.S. School of Music in Washington, D. C.

Opportunities for advancement are great in the Army bands. Of the 42-piece authorized for a division-type band, for example, 37 of the spots are authorized men of the upper four pay grades.

Further information on enlistment for direct assignment to a U. S. Army band may be obtained from the Army recruiter SFC L. A. Dermody at 102 North Main St., Temple.

From where I sit ... by Joe Marsh

## Doc Nurses a Daydream

It's a treat when I get together with Doc Sherman. *The Clarion* keeps me much too busy—and Doc, well I think he puts in sixteen hours a day at the hospital.

But Tuesday—a beautiful day—he and I slipped away for a ride around Turtle Lake. Doc's driving a 1956 humdinger—it's like riding on a cloud.

Anyway, at one point Doc slowed almost to a halt. "Used to fish there as a boy, Joe," he said. "Used to sit and imagine myself up on the highway driving a high-powered car. Nowadays, I just sit here and wish I were down there again."

From where I sit, few of us are ever content with the way things are at any given moment. It's human nature. On the other hand, I've been rooting for years that someday *everybody* will show enough good American tolerance to respect his neighbor's right to enjoy a friendly glass of beer. When that day comes I assure you that I'll *never* want to change back.

Joe Marsh

# Early Tax Returns Allowed More Law Enforcement Time

"My Hat is off to you and your staff for a public service job well done," writes R. L. Phinney, District Director of Internal Revenue in a letter to The Cameron Herald.

Because of you fine assistance in getting the word to the folks in this District, covering the southern half of Texas plus their splendid cooperation, returns were filed earlier and were better prepared. This paved our way for smoother operations and saved us thousands of man-hours that were properly channeled into enforcement work. The net gain was to the advantage of the huge majority of our taxpayers who voluntarily comply with our tax laws.

# David McLain, A&M Soph Writer Gets Pro Society Bid

David McLain, sophomore journalism student at Texas A & M College was recently initatied into the student chapter of Sigma Delta Chi, national professional journalism fraternity.

Members of the fraternity are chosen on the basis of their professional interest in journalism and must have shown this interest by working on a student publication or some practical application of journalism. They must also be maintaining a 1.5 grade point ratio.

McLain, a member of the world's largest marching band, the 204-piece Aggie Band, is a staff member of The Battalion, official newspaper for A & M and the city of College Station. He is also on the staff of The Commentator. magazine of the School of Arts and Sciences.

This year, during the Easter holidays and a week after, McLain was among seven A & M journalists who published a 25-page edition of the Hondo (Texas) Anvil-Herald. The students gathered news, sold advertising, and did all writing and editing for that week's paper.

McLain is a member of the Journalism Club, the Public Relations Group, the Milam County A & M Club and was named a Distinguished Student for the full semester this year. He is the son of Mr. and Mrs. G. W. McLain, who live at 1100 East 10th. Street in Cameron.

## Political Sideshow Might Be Staged In Forgery Trial

The trial of Dave Bryant for alleged forgery in 1949 will set the stage for political rivalry to have "It's day in court" on Monday, May 21 when State's Attorney Bob Nelson and Jack W. Prescott cross swords in a battle which might be more than a state versus Bryant, with Prescott in the race for [illegible] County Attorney.

The case envolves an instrument allegedly forged on or about July 30, 1949 by Dave Bryant. A draft issued by the Fairmont Creamery Company of Giddings in the amount of $1272 was made payable to Paul Zipperlen of Rosebud at about that time and is now at the center of the legal battle. Bryant is charged with having fraudulently used the draft for his own purposes.

## Maysfield News

Mrs. Gilford Thweatt and her mother, Mrs. Plentl attended a family reunion at La Grange on Sunday.

Mr. and Mrs. J. P. Wise and granddaughter, Caro spent Sunday with Mr. and Mrs. Coas Wise at Yoakum.

Mrs. Ruby Massengale visited her sister Mrs. Hazel Peel in Scott and White hospital Sunday. Mrs. Peel is recuperating from an operation.

Mrs. W. C. Freeman and her mother, Mrs. Ola McGuire visited Mr. and Mrs. Billy Freeman and children of Austin recently.

Mrs. Ralph Massengale and Mrs. Elbert Massengale of Freeport visited relatives here last weekend.

### Mrs. Slama Is 42 Hostess

Mrs. L. F. Slama was the Thursday, May 10, hostess to the 42 Leisure Club and had her home decorated with Ivy and Spring Flowers.

Miss Bessie Marak was the ony visitor for the day.

Mrs. A. K. Gureck and Mrs. Gladys Matyastik tied for high score with the latter taking the 84 hand honors.

Sandwiches, pickles and potato chips and soft drink were served. Mrs. Henry McLane will be the hostess at 2 p.m. on May 24.

RIGHT AND WRONG WAYS TO COOPERATE with the Cameron Free Garbage pick-up service are pictured here. At top left the Sanitary Department man had to walk exactly 150 yards to get to the can which he has to pass over the fence. At least four more stops like the one pictured above right could have been made while the first one was being made. THE TOP RIGHT PICTURES THE IDEAL SITUATION for quick garbage pickup. In the filling of tubs with trash to be carried to the truck pictured, lower left, we see a deplorable situation. All of this trash should be in containers at the curb and then in the lower right picture is an **IMPOSSIBLE** and **DEPLORABLE** situation of refuse burned in the ditch by the side of the road and Sanitary Department men using a hay fork to pick it up. The latter situation, if continued, may become a matter for the City Health Officer and complaints which may result in fines being assessed. To say the least, Superintendent W. D. Bigbee says that his men will refuse to pick up under such conditions in the future.

## Texas Power And Light Service Expansion Noted In May Report

Continued expansion of facilities to provide for increasing electric service requirements in North, Central and East Texas was reflected in the Texas Power and Light Company's 1955 Annual Report issued early in May.

The Company spent during 1955 a total of $16,262,000 on new and enlarged facilities. The Companys new 110,000 kilowatt Collin Steam Electric Generating Station in North Texas was completed and placed in service in June 1955, the report stated. Preliminary plans were made for construction of another similar outdoor-type power plant on Stryker Creek in East Texas.

The report cites a 9 percent increase in operating revenues, 8 percent increase in operating expenses, and 3.7 percent increase in net income over the previous year. At the end of the year the Company was serving 325,344 customers, of which 15,522 were added during 1955.

A five-year summary reflects steady and continuous progress in the various phases of the Company's operations.

Industrial Development in the Company's service area continued during the past year, with several nationally-known industries moving into this section of Texas. Among the new industries which began operations in the year 1955 in the area served by the Company were: North Texas Producers Association's milk processing plant at Sulphur Springs; T. L. Smith Company's concrete mixer manufacturing plant at Lufkin; Mineral Controls Corporation's jet controls manufacturing plant at Irving; Norris-Thermador Corporation's rocket fuel container plant and the International Par Comany plant at Waco; American Rock Wool Corporation's plant at Corsicana; Larkin Packer company's oil field equipment manufacturing plant at Waxahahie; Super Seal Piston Ring Manufacturing Corporation, of Brownwood; Claiborne Household Tile and Manufacturing plant and J. A. Frye Shoe Company plant at Palestine; Sun Oil Company's Research Laboratory at Richardson Arthur J. Gavrin Press, producers of business forms, at Denison; and the Best-Rite Chalk Board Company at Temple.

The Company's report called attention to the fact that Texas Power and Light Company in 1955 was signally honored by being named winner of the 1954 Charles A. Coffin Award, considered the electric industry's highest honor. The Company also won during the year the Thomas W. Martin Award for outstanding contribution to rural life in the area srved, and the George A. Hughes Award in recognition of promoting electric commercial cooking.

### Oldest Business In Milam

**By Mrs. Lelia McAnally Batte**

The Cameron Herald, established in 1860, is the oldest business organization in Milam County. It was called the "Milam sentinel" and was published by E. H. Regan. Later the name "Milam Sentinel" became "Cameron Sentinel" and then was changed to "Cameron Herald" the name it still bears.

Two editors of this paper are noted for their outstanding ability; Hon. Oscar Fides McAnally and Mr. Jefferson B. White.

Mr. McAnally was editor and owner of the "Herald" for twenty years, and during those years, he did much for Cameron and Milam County. He was a fearless man, of intrepid courage and was a scholar of great educational attainments. Through his courage and intelligence, he brought to the readers of the Herald views which were the result of his own broad-mindedness, honesty and integrity.

The late Mr. Jefferson B. White, later editor of the Cameron Herald was a deep thinker, a man who also was unafraid to speak of his convictions, a courageous, scholarly man.

Both editors had many things in common, both having the education, the fidelity to truth and hatred of injustice of man to man made their own large place in Milam's history; places, peculiarly their own, and belonging to no other man.

No words of this author could ever estimate the greatness of their influence, wielded in The Cameron Herald, and these two men of great intelligence, love of justice, hatred of cowardliness and dedication to duty.

## 4-H Congress To See Valuable Prizes Given

All-expense trips to the National 4-H Club Congress in Chicago, 19-jewel watches, pen and pencil sets, and gold-filled medals are among the awards to be given in three National 4-H Award Programs just announced by the National Committee on Boys and Girls Club Work.

County, State and National winners will be honored again this year in the Beautification of Home Grounds, Dairy Foods Demonstration and Forestry programs.

In the Beautification of Home Grounds program, four medals of honor are provided for winners in each county. The state winner will be presented a 19-jewel wrist watch, and eight national winners will receive all-expense trips to the National 4-H Club Congress in Chicago. These incentives are provided by Mrs. Charles R. Walgreen of Chicago.

Dairy Foods Demonstration awards are provided by the Carnadividual and team demonstrators in each county, and 19-jewel watches for the high individual and tion Company. They include goldfilled medals for the winning in- each member of the high team in the state. Eight national winners in the program will be the guests of the donor at the National 4-H Club Congress.

American Forest Products Industries, Inc., provides a medal of honor for the county Forestry winner, a pen and pencil set for the state winner, and 12 all-expense trips to the Club Congress for national winners selected from among the state champions. All 4-H programs are conducted by the Cooperative Extension Service and the awards coordinated by the National Committee. Complete information is available from county Extension offices.

## Czech Moravian Sisters Emphasize Foreign Missions

The 18th Convention of the Christian Sisters' Union of the Czech Moravian Brethren Church was held on May 3, 1956, in New Tabor. Delegates from 21 Locals, all six members of the Executive Committee, nine ministers and a host of guests were present.

The Convention, which chose "First Things First" as its theme, and "Living For Jesus" as its' convention song, began at 9:30 A.M. with a short service. The message was delivered by the Rev. Daniel Marek of Houston, Texas. The President is Mrs. Jos. Barton of Nelsonville, Texas.

Emphasis was placed on the support of foreign missions. The Convention pledges itself to purchase a car for Rev. Premysl Pitter, so that he may better carry on his ministry among the scattered Czech displaced persons in Germany. Local organizations were encouraged to lend greater support toward the completion of a church summer camp, The Hus School Encampment, to be located in Burleson County near Caldwell, Texas.

Dr. Daniel Russel, Professor of Sociology at Texas A & M College spoke on "Food, the Universal Problem." Mrs. William Chupik of Temple, Texas, conducted the Memorial Service for 18 departed members.

The Rev. Henry E. Bessda, Jr., President of the Synodical Committee, installed the officers for the ensuing two years: President Mrs. William Chupik - Temple, Texas; Vice President - Mrs. E. J. Kostohryz - Temple, Texas; Secretary - Mrs. J. H. Siptak - Caldwell, Texas; Financial Secretary - Mrs. W. J. Balotka - Rosebud, Texas; Treasurer - Mrs. Arthur Lostak - Highlands, Texas.

The next convention will be held in West, Texas, in 1958.

## Prison System Needs Guards

O. B. Ellis, general manager of the Texas Prison System, has asked the Texas Press Association for help in locating 40 urgently needed guards.

"Mounted guards for the Texas Prison System are desperately needed," said Ellis. "At this time of the year, when prisoners should be in the field at work, we only have 609 guards available. Our regular staff totals 649.

"No previous guard experience is necessary as we train our own men. Therefore we will be happy to interview all physically sound men who are interested in joining our staff.

Men with good names and who want to work are especially desired. Preferred age is 40. But men from 21 to 55 are acceptable. Room, board, laundry and uniforms are furnished, along with a $2,700 annual salary.

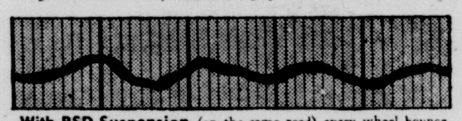
Here's the ride

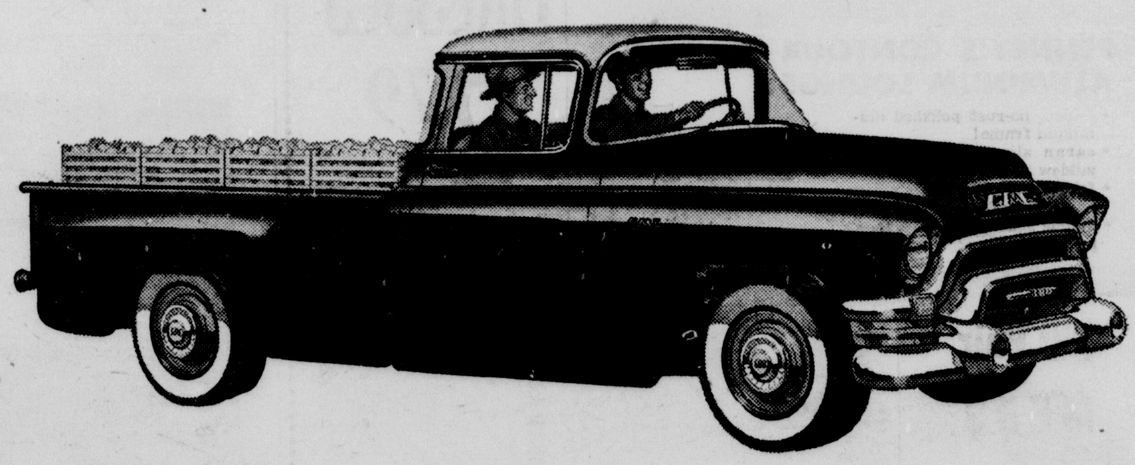
SEE THE DIFFERENCE RSD MAKES

With ordinary suspension wheels hop and bounce violently on rough roads as shown by actual oscillograph records.



With RSD Suspension (on the same road) every wheel bounce is instantly counteracted, smoothed out to a mere flutter on the oscillograph.

*the whole automotive industry envies!*



YOU'RE going to discover the most amazing ride any truck *or* car ever gave you.

For our Blue Chip GMC equipped with Road Shock Damper Suspension* smothers every jolt and bounce the worst road offers—blots up even short, sharp vibrations from road joints.

You can drive at normal speed over a washboard road where other vehicles must crawl. There's no slewing—no steering wheel wrenching—no punishment to truck *or* driver.

Part of this eye-opening ride, too, is the surging response you'll get from GMC's 180-hp V8 engine. You'll like the wide-angle safety vision of GMC's panoramic windshield—the amazing economy of GMC's fast-ratio cruising axle**—the time-, money- and driver-saving advantages of Hydra-Matic Drive.**

Drop in at our showroom tomorrow and learn firsthand about GMC Blue Chip leadership!

## Polio Season Here Vaccine Here-Some Free-It's Up To You

THE POLIO SEASON is upon us and all children under 20 and pregnant women of any age are eligible for the vaccine from the County Health Unit if they are unable to afford it from private practitioners, Dr. John Bryson reports.

Sufficient vaccine is available at the private physicians office to take care of all who wish to be vaccinated.

The Milam County Health Unit has vaccine available only for those unable to pay. The county allotment is only 10 per cent of the vaccine alloted.

Anyone in doubt about eligivility for free vaccine should talk to their private physician and a welfare worker and get a referral for the free innoculation. The physicians will make no charge for the referral, Dr. Bryson said.

## KMIL Invites All To Come In Or Tune In During Radio Week

Station KMIL announced today its participation in National Radio this Week, May 13-19.

All over the country, civic, fraternal, religious and social organizations are planning special programs to salute radio for its increasingly vital role in American life. Many groups are planning to invite station personnel to discuss with them the part radio plays in the community, what it is doing for the community's citizens and how it can be used even more effectively to inform and entertain the public.

Station KMIL will hold open house during National Radio Week and invites the public to come in and get acquainted with the station and its staff personnel. Tune in and listen for the special programs and activities planned by the station staff for this week.

## Spirit of C. H. Yoe
## A Living Monument

There were many students at the C.H. Yoe Memorial services Thursday morning, May 10, and not a student there ever knew Mr. or Mrs. Yoe. It is the noble spirit of these two which lives on in their hearts, more than a generation after their lives, their time and their talents graced the town of Cameron.

Students and teachers gathered at the "Shrine of the Spirit of Yoe High". They gathered for themselves a liberal quantity of the things which makes the Cameron School Spirit what it is. On May 11 these students and teachers went back to their classrooms to exude that renewed spirit so that next year's students and the next and so on down through the years the students will know the Spirit of Yoe and from whence it came.

Reverend C. H. Morris, pastor of the Frist Christian Church petitioned Almighty God to bless those eternal spirits that cannot die.

As is true traditionally the graves of the Cameron School benefactors was bedecked with flowers. Taps floated from the bugles of a trio composed of Grover McCullin Emory C. Camp and Rosemary Jones.

School officials are to be commended for perpetuating the commemorative services. A less thoughtful people could easily allow their benefactors to have been long since forgotten. These officials have set an example for others to see and to take heart from. They will be made to feel that in Cameron at least they can "Let their light shine" because here that light will not only shine now but will continue to shine throughout the years.

On the dual stone is engraved "Gone But Not Forgotten". The Cameron School System, by this annual service and the continuing Yoe Spirit is proof positive of that inscription.

Vern Sanford writes for his press association a piece saying that "If you have a bit of imagination, you can see a huge "help wanted" sign hanging over the capitol dome at Austin.

Salaries range up to $25,000 a year.

Top job, of course, is that of governor. It is a two year job and the present holder of that $25,000 job, Allan Shivers has resigned.

John Ben Shepperd also is resigning Jan. 1 as Attorney General. The pay is $20,000 with a two year lease.

Four jobs at $17,500 include Land Commissioner, Comptroller, Treasurer and Railroad Commissioner.

Several $15,000 jobs are available, such as Agriculture Commissioner, three places on the Supreme Court, and one on the Court of Criminal Appeals. The Ag job is a two-year contract but the court jobs are for six years.

There are nine places on the Court of Civil Appeals each paying $12,000 a year. Most of these incumbents are seeking a renewal of their contracts.

15 State Senator and 150 House jobs expire (these are part-time jobs paying $25 a day for 120 days, normally working only every other year. The Senators get a four year contract while the House job has to be renewed every two years.

Ben Ramsey likes the Lieutenant Governor's job he holds and wants a new lease.

You have to pay to apply for these jobs and unforturnately you don't get a refund if you don't get the job.

Those seeking the Governor's job pay an application fee of $1,250; for Attorney General $1,000 smackers; Land Commissioner, Comptroller, Treasurer, Railroad Commissioner $875; Ag Commissioner $750 and the same for Judges of the Supreme Court and the Court of Criminal Appeals. Civil Appeals Court Judges pay a fee of $600, as does the Lieutenant Governor.

Applicants for House and Senate jobs pay $1 to $100 per county, the amount being determined locally.

Martin Dies holds the Congressman-at-large job which pays next to the Governor. Salary is $22,500 a year and application fee is $1,125. This job opens soon. It carries a two year contract.

If a man wants to keep his job in the statehouse he must compete with all comers and the application fee is just the beginning of the expense of getting the job. Also there are more bosses than employees, because the public, after all, has not the final say.

Three measurers, aimed principally at limiting activitfes of lawyers in the legislature, are proposed by the State Bar of Texas: 1. Raising legislators' pay to $50 a day for a 120 day session 2. Prohibiting any legislator or candidate from appearing before any state agency; 3. Abolition of the automatic continuance of law suits for which legislators are employed as counsel.

Field tours in the Schwertner Community west of Bartlett following the recent rains revealed some rather startling soil mois ture conditions. The tours were held by Adrian I. Moore, Soil Conservationist serving the Little River San Gabriel Soil Conservation District, and were attended by district cooperators and Vocational Agriculture students of the Bartlett high school.

Although this area had received a total of four and one-half inches of rainfall, the following points of interest were observed.

Recently re-bedded fields on rolling lands without terraces with rows running up and down the slope failed to allow sufficient water penetration to thouroughly wet the beds. Centers of the beds were dry with a wet surface of three to four inches. Over half of the total rainfall had been lost to some fields, Moore stated, and rebedding operations are being carried out to trap as much of the soil moisture as possible in the water furrows and thereby provide a wet area in which to plant. Penetration pattern of water in these fields resembled the up and down pattern of the bedded surface.

Adjoining fields with the benefit of terraces and contour farming, but with identical tillage treatment revealed an entirely different picture. All beds were thoroughly wet. Moisture penetration into the soil was apparently more uniform and had met with what small amounts of subsoil moisture remained in the soil. Run-off was lost from these terraced fields and in some instances terraces had topped over, but the slowing action effected on run-off water by the application of these two conservation practices has meant extra water in the soil for the production of this years crop.

Small grain and clover fields on terraced lands revealed negligible runoff with moisture penetration of 13 to 16 inches creditable to recent rains.

Severely over-grazed pastureland showed moisture penetration of eight to ten inches. Nearby grassland ungrazed or moderately grazed revealed moisture penetration up to sixteen inches chargeable to recent rains.

Seemingly, Moore summarized, poor soil structure, small quantities of organic residues on the sur face, and a lack of adequate quan tities of cover produced on both cropland and grassland contribute to large percentages of run-off from rainfall with fairly high intensities.

Despite the dry cracked condition of the soils in the area, a two and one-half inch rain, the first to fall on the upper one-fifth extremity of Donahue Creek drain age area, produced enough run-off to flood the stream throughout its entire length into Little River.

## Local Draft Board Holds Open House Friday May 18

Local draft boards in Texas will hold open house to the public on Friday, May 18th, as a part of the observance of Armed Forces Day throughout the state and nation.

The President of the United States has designated Saturday, May 19th as Armed Forces Day, to call the public's attention to our defensive "power for peace."

The boards will welcome the public from 9 a.m. to 12 noon on May 18th to learn something about how a Selective Service local draft board is operated.

of properties and monies available in each fund would give the board a positive and quick knowledge of where money can be spent and where none is available or spent up.

A letter was read to the board by Superintendent Hanes from the State board of education in which it was recided that the Average Daily Attendance of the O. J. Thomas School as shown on its records was outstanding with a 95.8 attendance shown. This was considered to be so outstanding that it called for a survey. The survey was made on several dates which were called good, clear days when attendance should have been at their height and after compiling the actual attendance reported on those dates the average daily attendance was shown to be 90.2. This discrepancy caused the state board to seriously challenge the average daily attendance of the O. J. Thomas school and that review of the board will be called for when the final reports of the year are in with the view of cutting the state apportionment for the school by cutting the teachers by the amount of the lowest salaried teacher now on the staff and the cut of $400 per year set up for operating costs of the school per teacher.

The name of Marcellus Harmon assistant dean of men at Prairie View Normal, a Milam County man was discussed for a contract in the Cameron schools for the coming year.

A committee representing the Parent Teacher Association of the O. J. Thomas School sought information as to what extent the parents of the school should go in obligating themselves for the purchase of band uniforms. The PTA had reported that it had planned to use various means of securing the money through monies made on vending machines and the sale of war bonds on hand in the Citizens Natvnal Bank. The answer of the board was that the board will purchase the uniforms in time for the next school term if the money can be found. At this time it cannot be determined what monies are available for such a purpose, it was explained, but it is the policy of the school board to furnish such items for the white and colored schools, that they were to be commended upon taking the active interest which they have shown and that they could spend the monies from their little projects for the purchase of smaller items such as music stands and music. The committee seemed to be at a loss as to the attitude of the board in that they had been advised that such was not the intention of that body.

In succeeding action a committee was set up to draw up plans and specifications for bids on cafeteria equipment for the O. J. school. One price was considered for second hand equipment offered by a local concern. A dishwashing machine will replace the scullery tubs now used in the O. J. school.

The summer recreation program in Cameron will remain the same as in the past with an expenditure of the School Board of $750 with a like amount from the city. Each of the groups will have committees to work together on the program. Upon request of the city Miss Ann Hinyard of Southwest Texas State Teachers College will be hired this year to take care of the female part of the program. It is believed that she will carry on an eight hour daily program which will include swimming instruction by the Physical Education major. Her salary will be $400 for the ten week program. The director, as yet not hired, will be paid $500 and a colored section director at $300 is yet to be chosen.

Approval of the sale of the Beale Chapel School house and grounds to Rube Johnson for $750 was approved to be delivered with out warranty.

Hinton Pruett, county superintendent of schools appeared to ask whether the Cameron School Board would continue to accept trasfers from Yarrellton and Buckholts colored schools. Upon motion of Dr. Shapiro all transfers which Pruett has to make before June 1 for next year will be accepted.

On May 24, Wiley Loughmiller announced, his eighth grade will hold promotion exercises in the Yoe Gymnasium at 2:45 p.m. with 75 to 80 students going into Yoe High School.

In the future the board of education will automatically opprove for graduation all students certified by the administration. In the past a special meeting of the board was called to certify the list of graduates. This practice

cording to minutes of the board said Principal Layfield.

A surveyor will be hired to survey the Belmena school property with the idea of selling the property.

The meeting adjourned at 12:15 a.m. Wednesday morning after convening at 7:30 the night before.

**CITY —**

present water-consumption trend continues, the city water supply may be in bad shape in a top water consuming month, August. Councilman Brady made a motion to extend the irrigation rates and set up summer water rates for June, July, and August. It passed unanimously.

A resolution to former City Marshal, Joe Richter, commending him for six years of faithful service to the city was read. A copy will be sent to Mr. Richter.

Councilman Thompson moved each property owner who has a business or dwelling on a lot or lots within 100 feet of existing sewer line, requesting that said property by connected to sewer line with 90 days of date of letter. The motion carried unanimously.

A motion was made and passed that Wilma Hollowoy be appointed acting City Secretary until such time as a permanent Secretary can be hired.

Ordinances were the next order of business, as a few yawns began to show up here and there. An ordinance was passed on first reading concerning the city's garbage and trash pick-up regulations, receptacles, and so forth. The three main points of the ordiance are that users must have a suitable container, the garbage and trash must be put in an accessible place, and trash, tree limbs, leaves, etc. shall be in a convenient size for pickup. The results of cooperation on these three points would mean, according to Mr. Bigbee, a regular weekly pick up.

Chief of Police Willie Dolan was instructed to notify various establishments in town that the dumping of some trash, such as cans, can be classified as a nusiance, and the trash must be carted off.

An ordinance was passed on second reading concerning the purchase of water connections Door Co. Councilman Stidham voted no. Another ordinance was passed on first reading creating and consolidating certain departments of city government under the city charter, with the Streets, Recreation, and Sanitation Departments under control of the Superintendent of Public Works. The voting was three ayes, one no from Mr. Thompson, and one abstaining.

Council right-of-way committee reported and following some discussion, a motion was made and passed to pay the Presbyterian Church the asked for sum of $9000 for right-of-way for the new highway, 36 right of way. The money will be paid, at least partly, if possible, out of the meter fund.

Councilman Thompson moved to instruct the city engineer to prepare plans and specifications and submit to the council for approval a storm sewer line to run from 6th and Jackson to 7th and Nash and 7th, thence northerly to 13th and secure right-of-way easements throughout the full length of the line.

The councilmen heard a report from Chief of Police Dolan requesting a $10 per month uniform allowance for the four men in the police department. Request was granted. Stidham moved and the council passed a motion raising the salary of city parking meter patrolman, Terry, to $200 monthly, plus the $10 uniform allowance.

A motion was passed ordering committee's recomendations on an ordinance validating police fines and traffic tickets.

City Judge Baskin and City Attorney, Bill Black were placed under $1000 bond.

A flashing red light was ordered for the city patrol car at a cost of $14.

## Farm Bureau Plans Critical Cotton Confab At Corpus

The cotton situation, termed by authorities as the "most critical ever faced," will receive a complete airing at Farm Bureau-sponsored meetings scheduled May 28 in Corpus Christi, May 29 in Dallas and May 30 in Lubbock.

J. Walter Hammond, Texas Farm Bureau president, said some of the problems prompting the meeting were rapid decrease in cotton acreage, increasing surpluses, increased foreign production, and the price advantage of synthetic fibers. He urged everyone interested in the future of the cotton industry to attend the meeting in their area.

Cotton authorities scheduled to speak at all three meetings include Jack Lynn, Washington, D. C. legislative director for the American Farm Bureau Federation Dr. M. K. Horne, Memphis, Tenn. chief economist for the National Cotton Council; an Hoyt Gaston, Waxahachie, member of the TFB board of directors.

The meetings will be at the White Plaza Hotel in Corpus Christi, The Baker Hotel in Dallas and the Lubbock Hotel in Lubbock. The Corpus Christi and Dallas meetings will begin at 10 a.m. and adjourn at 3 p.m. while the Lubbock meeting will start at 9:30 a.m. with adjournment set for 1:00 p.m.

Recent guests of Mr. and Mrs. Joe Krall were his brother's family, Mr. and Mrs. Leo Krall of East Bernard and daughter and son in law Mr. and Mrs. August Kubena and Matilda of Rosenberg.
